

Come Zoom with Us!! Dutchess County Genealogical Society Presents:

Frank Doherty's Records of the Beekman Patent

December 12, 2020 2:00 to 4:00 PM via Zoom

Award winning historian Frank Doherty discovered rare Dutchess County military, lease and store book records in his quest to document the early settlers of the Beekman Patent. Weaving these records into ancestor's stories requires searching the county beyond the Beekman Patent, and the region beyond Dutchess County, NY, before the settlers arrived as well as after they migrated out of the county. In this presentation we will learn more about the lease system, the early records of the region and how to use these records to research your ancestors.

Registration is free...but you must register [here](#).
